

ECDIS Ltd New ECDIS Reference Cards Now Available

ECDIS Ltd have released a range of Type Specific ECDIS Reference cards, on-line produced Type Specific ECDIS SMS Procedures and an update to their ECDIS Check Off Cards Inspectors and investigators, including all top questions and key menu answers on all the leading systems.

Following on from the success of the ECDIS Check Off Cards; which have recently been updated to include 19 manufacturers; giving mariners key menu functions and features, ECDIS Ltd has now released Type Specific Reference Cards and on-line ECDIS SMS procedures for each individual ECDIS model.

The unique aspect of the reference cards is the ability to customise various cards to ensure accuracy with each company policy. This customisation is completed via a simple online form. These customisations include confined, coastal and open settings for every single menu item as well as watermarking which ensures no misuse onboard.

In addition to the reference cards, a complete ECDIS SMS Procedures guide is also available for each model, giving companies a comprehensive set of instructions for their companies ECDIS usage.
