

## eMaritime Group ECDIS 4.0 Conference in July 2017 Proving Popular

**The eMaritime Group's ECDIS 4.0 Conference is gaining great interest within the industry from both shipping companies and ECDIS manufacturers.**

The concept behind the 1 day event evolved from many of eMaritime Groups shipping company clients making it known they were unaware of the impending changes.

*"We have been surprised at how many people have told us they didn't know about the new IHO regulations so we thought we should use our resources to better inform those who needed it. This event is not about us as a company, we are merely hosting, as such we are only partially involved in the presentations. The event is free of charge because we want this to be available to as many people as possible."*

- Robyn Harrigan, ECDIS Ltd Training and Production Manager
